1 General Information

1.1 System Overview

GradApps 2.0 is a business system application, which assists **The EECS Graduate Program** to *locate* the best candidate into the EECS Graduate Program by *minimizing* the manual work to be done.

The application is broken down into three user levels: *Administrator*, *Committee Member* and *Professor*. GradApps 2.0 operates as a web application, hence, a reliable internet connection is required when interacting with the application.

1.2 Organization of the Manual

The user's manual consists of eight sections:

- **General Information** section explains in general terms the system and the purpose for which it is intended.
- **System Summary** section provides a general overview of the system. The summary outlines the uses of the system's hardware and software requirements, system's configuration, user access levels and system's behavior in case of any contingencies.
- **Getting Started** section explains how to get GradApps 2.0 and install to have it up and running. This section is solely for administrative uses.
- **Using The System** section provides a detailed description of the common system functions.
- **Administrator Use** section provides a detailed description of the administrator system functions.
- **Committee Member Use** section provides a detailed description of the committee member system functions.
- **Professor Use** section provides a detailed description of the professor system functions.
- **Help** section provides the contact information for further help on using the application.

2 System Summary

This section provides a general overview of the system. The summary outlines the uses of the system's hardware and software requirements, system's configuration, user access levels and system's behavior in case of any contingencies.

2.1 System Configuration

2.1.1 Browser Configuration

GradApps 2.0 operates as a web interface application. It supports all modern web browser, however, Chrome and Mozilla Firefox are the recommended browser for using the application. The application is recommended to be only used through desktop browsers.

Recommended Browser(s):

- **Chrome:** \geq Chrome v60.0.3112
- **Mozilla Firefox:** \geq Firefox 57 (v57.0a1)

2.1.2 Node.js Configuration

GradApps 2.0 is built using Node.js and it is vital to use the correct version of the node package manager (npm) and the node.

Recommended Node.js version:

- **Node:** \geq v8.9.4
- **NPM:** \geq 5.6.0

2.1.3 MySQL Configuration

GradApps 2.0 uses MySQL commercial database as the datasource manager.

Recommended MySQL version: \geq 5.7.20

The following environmental variables are required to be set prior to starting the application.

- **MYSQL_HOST:** the host name of the database server

- **MYSQL_PORT**: the port number of the database server
- **MYSQL_USER**: the user name to access the database
- **MYSQL_PASSWORD**: the password to access the database
- **MYSQL_DATABASE**: the database name (optional)

Note: The default database name for the application is *gradapps*. However, any customized database name can be set by using the environmental variable mentioned above.

2.1.4 Other Configuration

The default port for the application web server is 3000. However, it can be set to one of your choice by enabling the PORT environmental variable.

2.2 User Access Levels

Only registered users can use the application. The user access levels for the three different user roles are discussed further in the document for each role.

2.3 Contingencies

In case of power outage or unexpected shutdown of the web server, the application will stop working and any unsaved data will be lost. It is recommended for users to save data frequently to avoid such losses.

3 Getting Started

This section explains how to get GradApps 2.0 on the machine, install it and start the application. Please note this section is solely for the system administrator's who will maintain the application.

To install the application, it has to be pulled from the private GitHub repository as it is not a published application for other uses.

To clone the repository in the server machine, please make sure Git is installed in the machine. Along with Git, all the above configuration mentioned in Section 2.1 must be installed.

Recommended Git version: `>= 2.3.2`

1. Git clone the repository in the current working directory, run the following command:

```
$ git clone https://github.com/ssh24/EECS4090-Project.git
```

2. Change the working directory to the source of the project:

```
$ cd EECS4090-Project/src/
```

3. Install the required dependencies:

```
$ npm install
```

4. Set the required environmental variables (CentOS):

```
$ SET MYSQL_HOST = <host>
$ SET MYSQL_PORT = <port>
$ SET MYSQL_USERNAME = <username>
$ SET MYSQL_PASSWORD = <password>
$ SET MYSQL_DATABASE = <database>
$ SET PORT = <app_port>
```

5. Seed the database:

```
$ npm run seed:app
```

6. Start the application server:

```
$ npm start
```

7. The application can then be accessed at port 3000 or the one set by you using the environmental variable. To access the application locally, go to `http://localhost:<app_port>`.

Note: In order for the application be accessible from outside, the application port need to be set open. Once it is set open, the application can be accessed from anywhere it an internet in the following way: `http://<app_host>:<app_port>`.

4 Using The System

This section provides a detailed description of the common system functions. Common system functions are functionality that are available to all users who has access to the system. The list of common system functions are listed below:

4.1 Logging In

To access the gradapps portal you'll first need to be authenticated into the system. To begin simply click on the “Sign In” button on the welcome page.

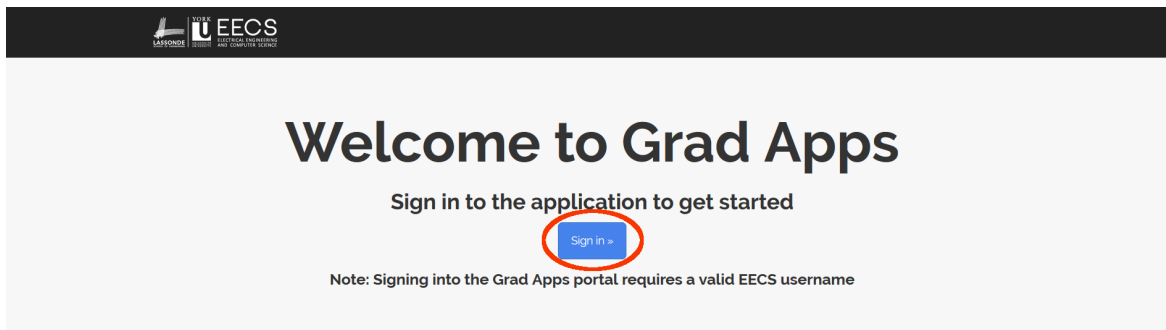

Figure 1: Welcome Page

You will then be redirected to the login page. Input your username, password and click on the “Login” button. If you are successfully authenticated you will be redirected to the role selection page.

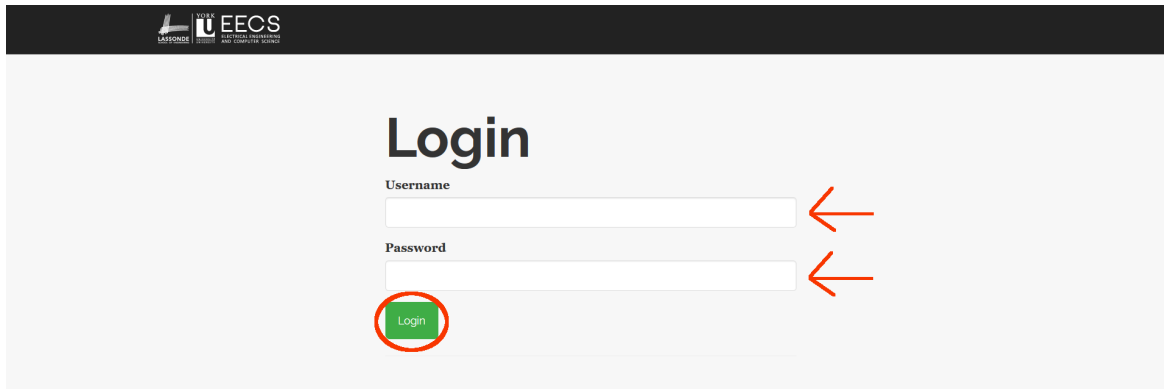

A screenshot of the login page for the EECS system. The page has a dark header with the 'EECS' logo and 'ELECTRONIC ENGINEERING AND COMPUTER SCIENCES' text. The main content area is light gray and features a 'Login' heading. Below the heading are two input fields: 'Username' and 'Password'. To the right of each field is a red arrow pointing left. Below the 'Password' field is a green 'Login' button, which is circled in red.

Figure 2: Login Page

Note: If the credentials you have provided are invalid you will be greeted with an error message.

4.2 Selecting a Role

The subsections below describe the methods for selecting the a role.

4.2.1 Role Selection Page

From the role selection page click on the “Continue as Committee Member” button to be redirected to the committee member portal.

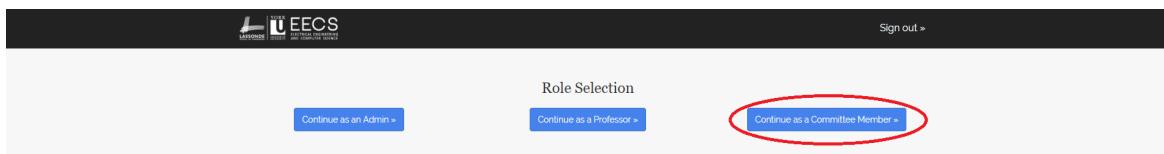

A screenshot of the role selection page. The page has a dark header with the 'EECS' logo and 'Sign out >' link. The main content area is light gray and features a 'Role Selection' heading. Below the heading are three blue buttons: 'Continue as an Admin >', 'Continue as a Professor >', and 'Continue as a Committee Member >'. The 'Continue as a Committee Member >' button is circled in red.

Figure 3: Role Selection Page

Note: To access the administrator/committee/professor portal you must be granted access from an administrator.

4.2.2 Navigation Bar

If you have selected another role and wish to switch roles you will be presented with an option on the navigation bar. Click on the dropdown menu that displays your current role and click on your desired role.

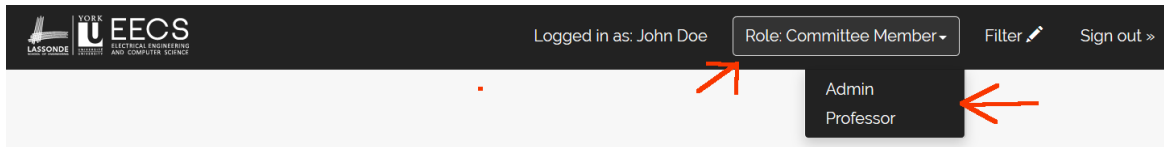

Figure 4: Switch Roles

Note: To access the administrator/committee/professor portal you must be granted access from an administrator.

4.3 User Settings

To customize personal user settings, simply click on the “Settings” button from the navigation bar on any page. The following are the required fields when update personal user settings:

- Username
- Last Name
- First Name
- Email

Figure 6: User Settings Form

4.4 Logging Out

To logout of the system, simply click on the “Sign out” button from the navigation bar on any page.

Note: Idleness in the system for a maximum of 15 minute will cause the user session to be automatically terminated and the user will be logged out.

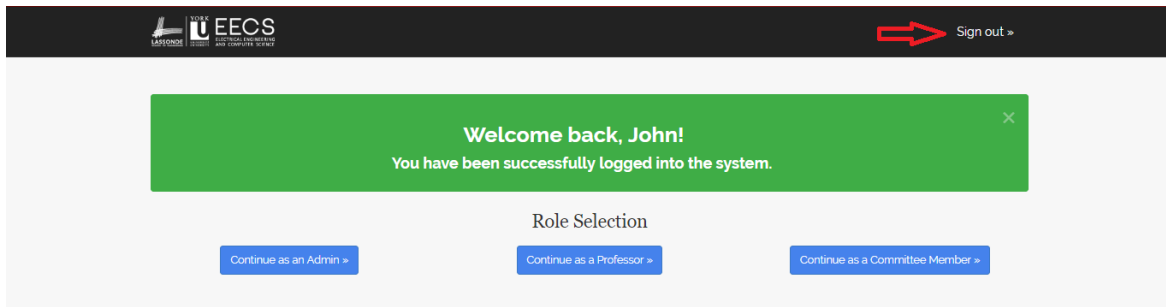

Figure 7: Logout of the System

5 Administrator

This section provides a detailed description of the committee member system functions.

5.1 Administrator Dashboard

After logging in and selecting the *Admin* role you will have access to the administrator dashboard. From the dashboard you can perform the following:

- Manage Users (Refer to section: 5.2)
 - Adding a new user
 - Remove an existing user
 - Assign a new role to an user
 - Removing a role from an user
 - Updating user information such as:
 - * Username
 - * Password
 - * Last Name
 - * First Name
 - * Email Address
 - * Field(s) of Specialization
 - Deleting unwanted filter presets
- Manage Applications (Refer to section: 5.3)
 - Creating a new application
 - Deleting an existing application
 - Apply filtering on existing application(s)
 - Save presets on most used filter(s)
 - Export all or a set of application(s) to CSV
 - View application PDF file
- Manage Reviews (Refer to section: 5.4)
 - Assign at most one reviewer for visa applicants
 - Assign at most two reviewer(s) for domestic applicants

- Unassign reviews from an application
- Dismiss submitted review from an application
- View application PDF file

More on each of the three management portals in the following sections.

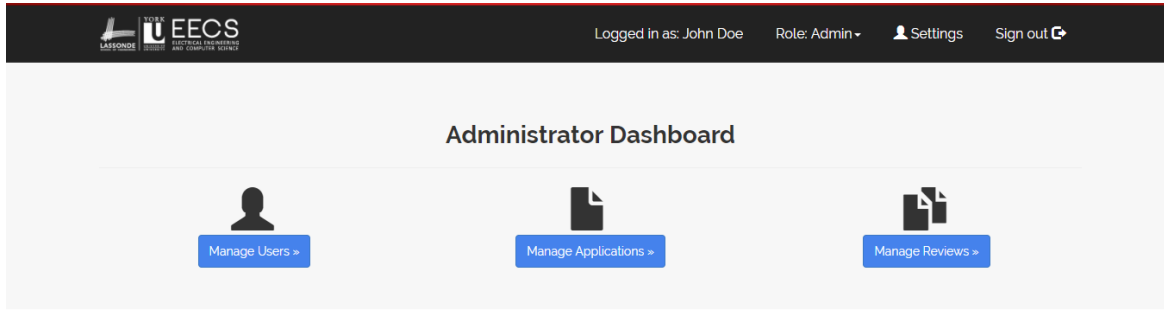

Figure 8: Administrator Dashboard

Note: Each of the management portal has a *Go back to dashboard* link which upon clicking will bring back to the default dashboard.

5.2 Manage Users

This section describes how you would add/remove a user, assign/unassign roles from a user and update user related information. To begin, from the administrator dashboard, click on *Manage Users*.

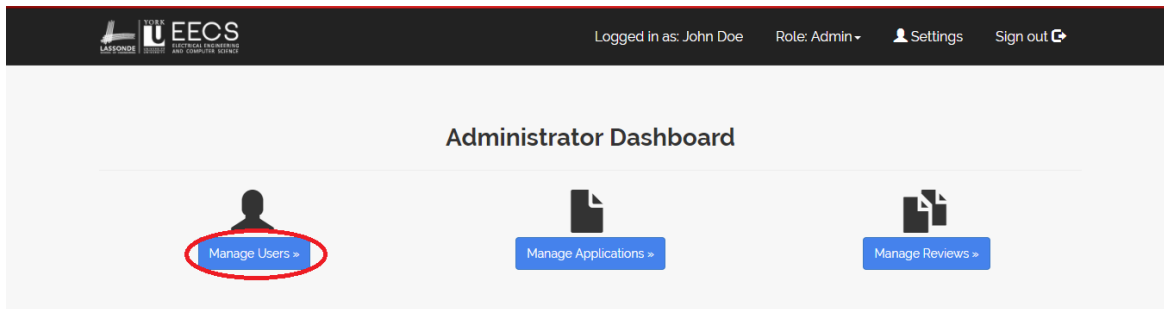

Figure 9: Click to Manage Users

5.2.1 Adding a user

Once in the managing user portal, you can add a new user to the system. Adding a new user to the system requires you to give them a username (EECS username), generate a random password or make a password for the user, fill in basic user information (such as Last Name, First Name, Email Address, Field(s) of Specialization) and assign them a role. The following fields are required when creating a new user:

- Username
- Password
- Last Name
- First Name
- Email
- Role(s)

Note: Username for a user is unique and hence trying to create a user with an existing username will not allow the new user to be created.

5.2.3 Remove an user

To remove an existing user from the system, click on the *Manage User* button as shown above for the corresponding user. Then click on the trash can button at the bottom of the page as shown.

Note: As an administrator you can only remove other users. You cannot remove yourself from the system. Another administrator has to remove you in that case.

5.2.5 Update User Information

As an administrator you can update user information. To update user information for an existing user, click on the *Manage user* button as shown above for the corresponding user. Then click on the upload button at the bottom of the page as shown. The following fields are required when updating a user information:

- Username
- Last Name
- First Name
- Email
- Role(s)

Note: All required fields are needed to be filled when editing an user.

The screenshot displays the 'Edit User Form' with the following sections and fields:

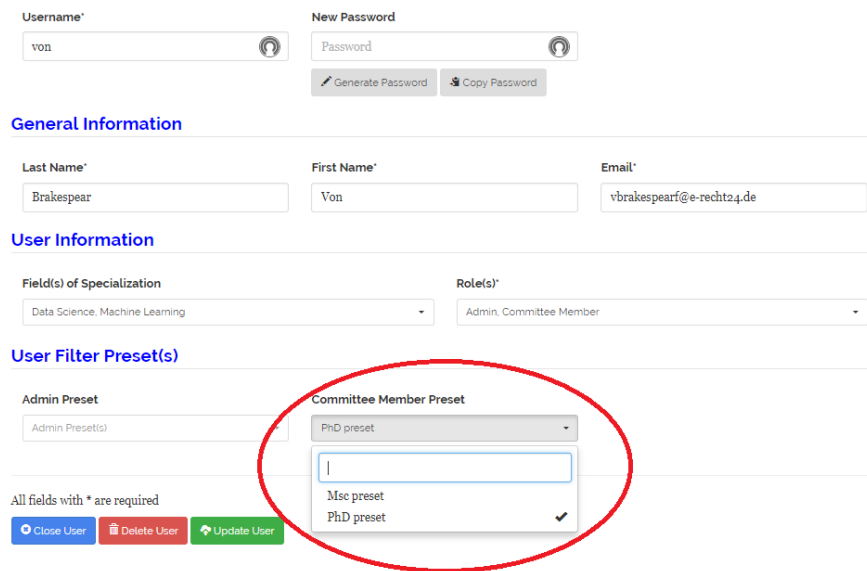

- Login Information:** Includes 'Username*' (containing 'arri') and 'New Password' (containing 'Password'). Below the password field are 'Generate Password' and 'Copy Password' buttons.
- General Information:** Includes 'Last Name*' (containing 'Cristofolo'), 'First Name*' (containing 'Arri'), and 'Email*' (containing 'acristofoloo@furl.net').
- User Information:** Includes 'Field(s) of Specialization' and 'Role(s)*'.
- User Filter Preset(s):** Includes 'Admin Preset'.

At the bottom, a note states 'All fields with * are required'. Below this note are three buttons: 'Close User' (blue), 'Delete User' (red), and 'Update User' (green). The 'Update User' button is circled in blue.

Figure 16: Updating an user

5.2.6 Remove Unwanted Filter Presets

As an administrator you can remove unwanted filter presets for a particular user. To remove such presets for an existing user, click on the *Manage user* button as shown above for the corresponding user. Then simply unchecking the preset from the dropdown will permanently remove the preset for the user.

The screenshot shows a user management form. At the top, there are fields for 'Username*' (containing 'von') and 'New Password' (containing 'Password'). Below these are buttons for 'Generate Password' and 'Copy Password'. The form is divided into sections: 'General Information' with fields for 'Last Name*' (Brakespear), 'First Name*' (Von), and 'Email*' (vbrakespearf@e-recht24.de); 'User Information' with 'Field(s) of Specialization' (Data Science, Machine Learning) and 'Role(s)*' (Admin, Committee Member); and 'User Filter Preset(s)'. In the 'User Filter Preset(s)' section, there are two dropdown menus: 'Admin Preset' (showing 'Admin Preset(s)') and 'Committee Member Preset' (showing 'PhD preset'). The 'Committee Member Preset' dropdown is open, showing a list of options: 'PhD preset' (selected with a checkmark), 'Misc preset', and 'PhD preset'. At the bottom, there are buttons for 'Close User', 'Delete User', and 'Update User', along with a note 'All fields with * are required'.

Figure 17: Remove Filter Presets

5.2.7 Sorting the Table

If you wish to sort the table displayed simply click on the columns that display arrows next to the name. The table can be sorted in Ascending/Descending order described below.

- **Member Name:** Descending Order = Z to A, Ascending order = A to Z
- **Member Email:** Descending Order = Z to A, Ascending order = A to Z

Pro-tip: To sort by multiple columns hold the shift key while clicking on the columns.

5.3 Manage Applications

This section describes how you would create/delete an application, export applications to CSV, apply filtering on application(s), save most used filter(s) as preset and viewing application PDF file. To begin, from the administrator dashboard, click on *Manage Applications*.

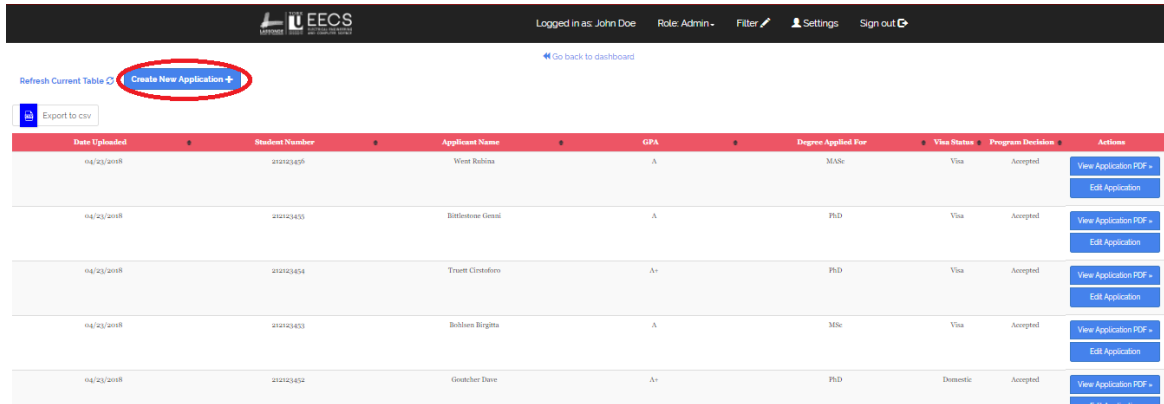

Figure 18: Click to Manage Applications

5.3.1 Create an application

Once in the managing application portal, you can create a new application and upload all necessary documents. Creating a new application requires you to upload the application file, filling out general application information, previous grades, application information and finally assigning a one or more reviewer from the admission graduate committee. The following fields are required when creating a new application:

- Application File
- Session
- Student Number
- Last Name
- First Name
- Email
- Gender
- GPA
- Visa Status

- Degree Applied For
- Field(s) of Interest
- Preferred Professor(s)

The screenshot shows the EECS Gradapps dashboard. At the top, there is a navigation bar with the EECS logo, user information (Logged in as: John Doe, Role: Admin), and links for Filter, Settings, and Sign out. Below the navigation bar, there is a 'Refresh Current Table' button and a 'Create New Application' button, which is highlighted with a red circle. Below these buttons is a table with the following columns: Date Uploaded, Student Number, Applicant Name, GPA, Degree Applied For, Visa Status, Program Decision, and Actions. The table contains five rows of application data.

Date Uploaded	Student Number	Applicant Name	GPA	Degree Applied For	Visa Status	Program Decision	Actions

5.3.2 Edit existing application

Once in the managing application portal, you can edit an existing application. Editing includes updating all attributes specified in the previous section (refer to Section 5.3.1) plus additional attributes such as professor(s) that have contacted or requested the student, the program decision, the student decision and etc.

The screenshot shows the EECS application management portal. At the top, there is a navigation bar with the EECS logo, user information (Logged in as: John Doe, Role: Admin), and links for Filter, Settings, and Sign out. Below the navigation bar, there are buttons for 'Refresh Current Table' and 'Create New Application'. A table lists applications with columns: Date Uploaded, Student Number, Applicant Name, GPA, Degree Applied For, Visa Status, Program Decision, and Actions. The 'Edit Application' button in the first row is highlighted with a red circle.

5.3.5 Export Application(s)

Once in the managing application portal, you export all or a set of application(s) in CSV format. To achieve a set of applications simply use filtering to narrow down the application result. Clicking on the *Export to CSV* button will download all selected application into a CSV file.

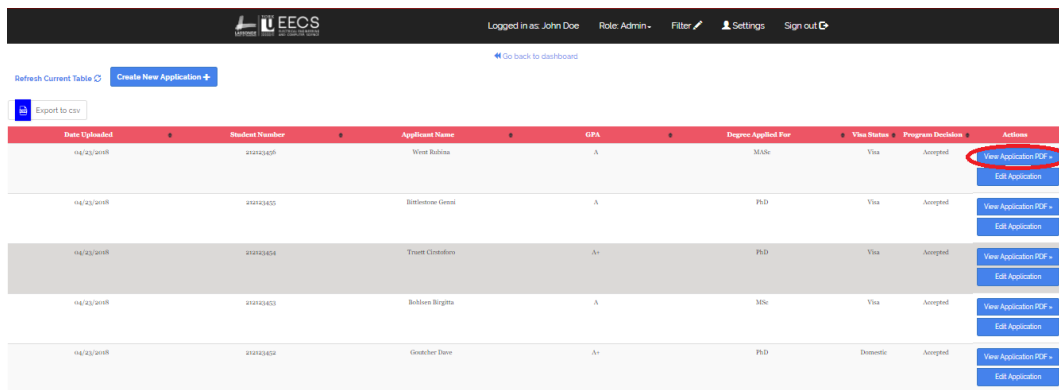

The screenshot shows the EECS Gradapps interface. At the top, there's a navigation bar with the EECS logo, user information (Logged in as: John Doe, Role: Admin), and links for Filter, Settings, and Sign out. Below the navigation bar, there's a toolbar with 'Refresh Current Table' and 'Create New Application' buttons. The 'Export to CSV' button is circled in red. Below the toolbar is a table with columns: Date Uploaded, Student Number, Applicant Name, GPA, Degree Applied For, Visa Status, Program Decision, and Actions. The table contains six rows of application data. Each row has two buttons in the Actions column: 'View Application PDF' and 'Edit Application'.

Date Uploaded	Student Number	Applicant Name	GPA	Degree Applied For	Visa Status	Program Decision	Actions
04/23/2018	202023456	Wong Robina	A	MSc	Visa	Accepted	View Application PDF Edit Application

Figure 24: Exporting application(s)

5.3.6 View Application PDF

Once in the managing application portal, you can chose to view the PDF formatted file of the application. Clicking on the *View Application PDF* for the corresponding application will open a new tab along with the pdf file.

The screenshot shows the EECS application management portal. At the top, it says "Logged in as John Doe" with a role of "Admin". Below the header, there are buttons for "Refresh Current Table" and "Create New Application". A table lists applications with columns: Date Uploaded, Student Number, Applicant Name, GPA, Degree Applied For, Visa Status, Program Decision, and Actions. The first row is highlighted, and the "View Application PDF" button in the Actions column is circled in red.

Date Uploaded	Student Number	Applicant Name	GPA	Degree Applied For	Visa Status	Program Decision	Actions
11/6/22/2019	201923456	Wendy Roberts	A	MAEd	Visa	Accepted	View Application PDF Edit Application

5.3.7 Filtering the Table

This section describes how you would use/build/save/load a filter on the review table.

1. **Opening the Modal** To begin with filtering you must open the modal. To do so click on the “Filter” button on the navigation bar.

The screenshot shows the Gradapps application interface. At the top, there is a navigation bar with the EECS logo, user information (Logged in as John Doe, Role: Admin), and buttons for Filter, Settings, and Sign out. Below the navigation bar, there is a section with 'Refresh Current Table' and 'Create New Application' buttons. A red arrow points to the 'Filter' button in the navigation bar. Below this, there is a table with columns: Date Uploaded, Student Number, Applicant Name, GPA, Degree Applied For, Visa Status, Program Decision, and Actions. The table contains six rows of application data. Each row has two buttons in the Actions column: 'View Application PDF' and 'Edit Application'.

Date Uploaded	Student Number	Applicant Name	GPA	Degree Applied For	Visa Status	Program Decision	Actions
04/23/2018	010103435	West Robina	A	MSc	Visa	Accepted	View Application PDF Edit Application

5. **Saving a Filter** Once you have chosen your columns and filter attributes confirm your filter by reading the text under “Selected Filter” and give the preset a name by typing in the text box between the “Submit” and the “Save Preset” button. Once that is done click “Save Preset”.

The screenshot shows the LEFCS Filter interface. At the top, there's a 'Filter' header with a pencil icon. Below it, the 'Load a Preset' section has a dropdown menu showing 'Nothing Selected'. The 'Choose Your Columns' section displays a grid of columns: 'Date Uploaded' (1), 'Student Number', 'Applicant Name' (3), 'GPA' (4), 'Degree Applied For', 'Visa Status' (2), 'Program Decision', and 'Actions'. The 'Choose Your Filters' section shows five filters: 'Applicant Name' (Any), 'GPA' (Any), 'Degree' (MSc), 'Visa Status' (Any), and 'Program Decision' (Any). The 'Selected Filter' section shows 'Degree Applied For = MSc'. At the bottom, there are three buttons: 'Cancel', 'Submit', and 'Save Preset' (circled in red). A text box between 'Submit' and 'Save Preset' contains the text 'All MSc applicants'.

Figure 33: Save a Filter

Once you have saved a filter you will be provided with a new table to match your filter and it will appear in the dropdown to be used for loading a filter.

Pro-tip: You can update a filter by typing in the same name as an existing filter.

6. **Loading a Filter** To load a saved filter click the dropdown under “Load a Preset” and select the preset you wish to use. Once selected the modal will auto-populate.

Figure 34: Loading a Filter

Pro-tip: Create a preset called *Default* with no columns or filters selected. You can then use this to load the default table or help clear any data you put in the modal.

5.3.8 Sorting the Table

If you wish to sort the table displayed simply click on the columns that display arrows next to the name. The table can be sorted in Ascending/Descending order described below.

- **Date Uploaded:** Descending Order = Newest - Oldest, Ascending order = Oldest - Newest
- **Student Number:** Descending Order = Largest to Smallest, Ascending order = Smallest to Largest
- **Applicant Name:** Descending Order = Z to A, Ascending order = A to Z
- **GPA:** Descending Order = A+ to F, Ascending order = F to A+
- **Degree Applied For:** Descending Order = Z to A, Ascending order = A to Z
- **Program Decision:** Descending Order = Z to A, Ascending order = A to Z

Pro-tip: To sort by multiple columns hold the shift key while clicking on the columns.

Note: Ordering fields can be done on both filtered and unfiltered application lists.

The following images depicts on how to order review applications using the *Student Number* field in ascending and descending order.

Date Uploaded	Student Number	Applicant Name	GPA	Degree Applied For	Visa Status	Program Decision	Actions

Figure 37: Ordering using multiple fields

5.4 Manage Reviews

This section describes how you would assign, unassign or dismiss reviews for an application and apply filter on review applications. To begin, from the administrator dashboard, click on *Manage Reviews*.

Figure 38: Click to Manage Reviews

5.4.1 Assign Review

Once in the managing review portal, you can assign a reviewer to an application. There is a maximum cap of number of reviewers assigned to an application. For domestic applications there is a maximum of 2 reviewers whereas for visa applications there is a maximum of 1 reviewer.

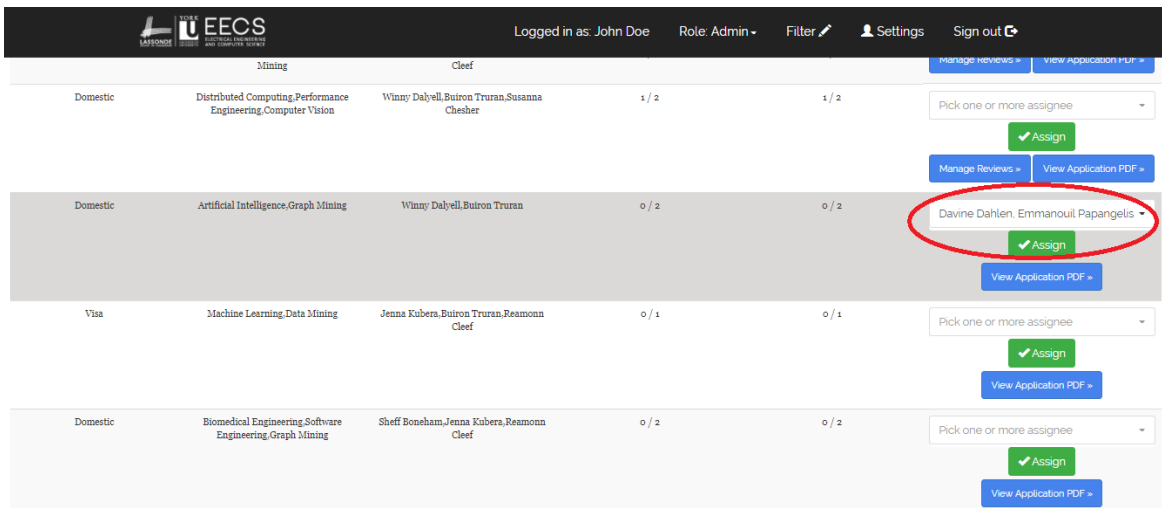

Figure 39: Assign a review

5.4.2 Unassign Review

Once in the managing review portal, you can manage a review for the corresponding application. To manage the review, click on *Manage Reviews* for the corresponding application. In the review outline page, it will display all the reviewers for the application. You can unassign a review for an application if it has not been submitted yet.

Manage Reviews

General Information

Student Number: 212123056	Last Name: Borrel	First Name: Glennis	Visa Status: Domestic
Field(s) of Interest: 1. Machine Learning 2. Data Mining	Preferred Professor(s): 1. Jenna Kubera 2. Buiron Truran 3. Reamonn Cleef

5.4.4 Filtering the Table

This section describes how you would use/build a filter on the table.

1. **Opening the Modal** To begin with filtering you must open the modal. To do so click on the “Filter” button on the navigation bar.

The screenshot shows the Gradapps interface. At the top, a dark navigation bar contains the UEECS logo, user information (Logged in as: John Doe, Role: Admin), and buttons for Filter, Settings, and Sign out. Below the navigation bar is a blue button labeled 'Go back to dashboard'. A red arrow points to the 'Filter' button in the navigation bar. Below this is a blue button labeled 'Refresh Current Table'. The main content is a table with the following columns: Visa Status, Field(s) of Interest, Preferred Professor(s), Reviews Assigned, Reviews Pending, and Actions. The table contains five rows of data, each with a 'Manage Reviews' button and a 'View Application PDF' button in the Actions column. The second row has a dropdown menu for 'Pick one or more assignee' with an 'Assign' button.

Visa Status	Field(s) of Interest	Preferred Professor(s)	Reviews Assigned	Reviews Pending	Actions
Domestic	Machine Learning, Data Mining	Jenna Kubera, Buiron Turan, Reamonn Cleef	2 / 2	1 / 2	Manage Reviews View Application PDF
Domestic	Data Mining	Bronny Poole	1 / 2	1 / 2	Pick one or more assignee Assign Manage Reviews View Application PDF

Figure 46: Resulted Table After Applying Filter

5.4.5 Sorting the Table

If you wish to sort the table displayed simply click on the columns that display arrows next to the name. The table can be sorted in Ascending/Descending order described below.

- **Visa Status:** Descending Order = Z to A, Ascending order = A to Z
- **Review Assigned:** Descending Order = Largest to Smallest, Ascending order = Smallest to Largest
- **Review Pending:** Descending Order = Largest to Smallest, Ascending order = Smallest to Largest

Pro-tip: To sort by multiple columns hold the shift key while clicking on the columns.

Note: Ordering fields can be done on both filtered and unfiltered review application lists.

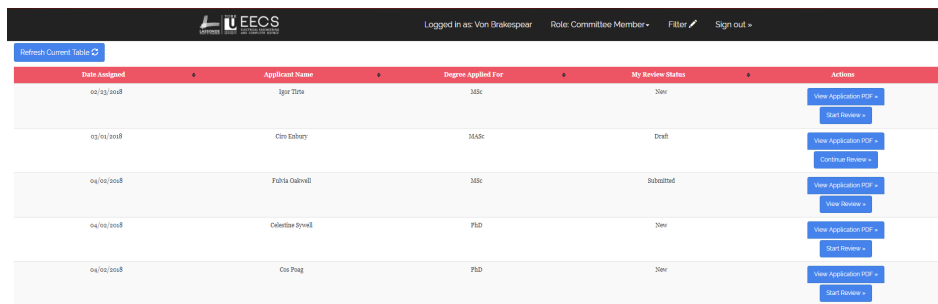

6 Committee Member

This section provides a detailed description of the committee member system functions.

6.1 Default Portal

After logging in and selecting the *Committee Member* role you will have access to the committee member portal. In this portal you will be presented with a table containing all the students who have applied to be a graduate student. Here you can perform the following:

- View current and past reviewed application(s)
- Apply filters on current and past reviewed application(s)
- Review an assigned application(s)
- Save a review as a draft for later completion.
- Add new university assessments in the system to be used in a review. Such a new assessment will be added globally to the system and can be seen and used by other committee members when filling out a review.

Date Assigned	Applicant Name	Degree Applied For	My Review Status	Actions
02/12/2018	Igor Tuma	MSc	Done	View Application PDF Start Review
03/01/2018	Cris Babary	MASt	Draft	View Application PDF Continue Review
04/01/2018	Paula Odwinil	MSc	Submitted	View Application PDF View Review
04/01/2018	Collette Byrrell	PhD	Done	View Application PDF Start Review
04/01/2018	Don Prag	PhD	Done	View Application PDF Start Review

Figure 47: Committee Member Portal

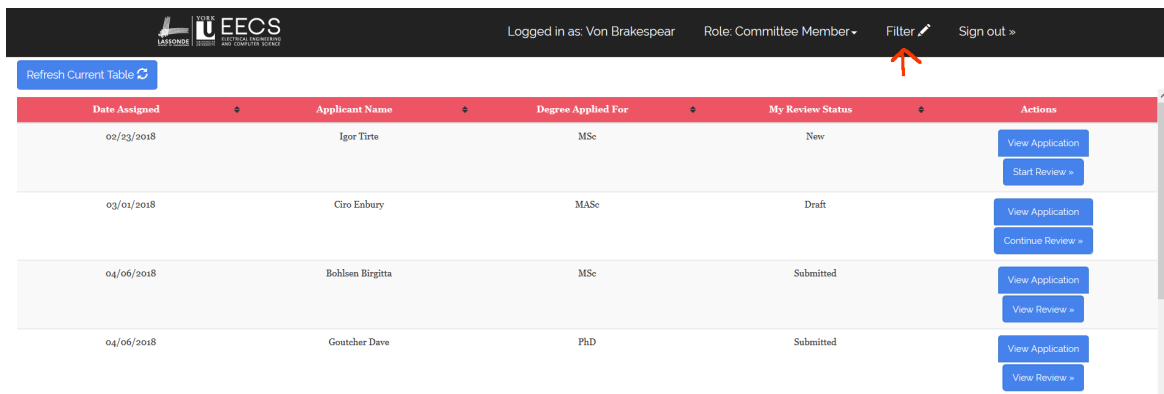

Note: If there are no reviews assigned, it will display a message instead.

6.2 Filtering the Table

This section describes how you would use/build/save/load a filter on the table.

6.2.1 Opening the Modal

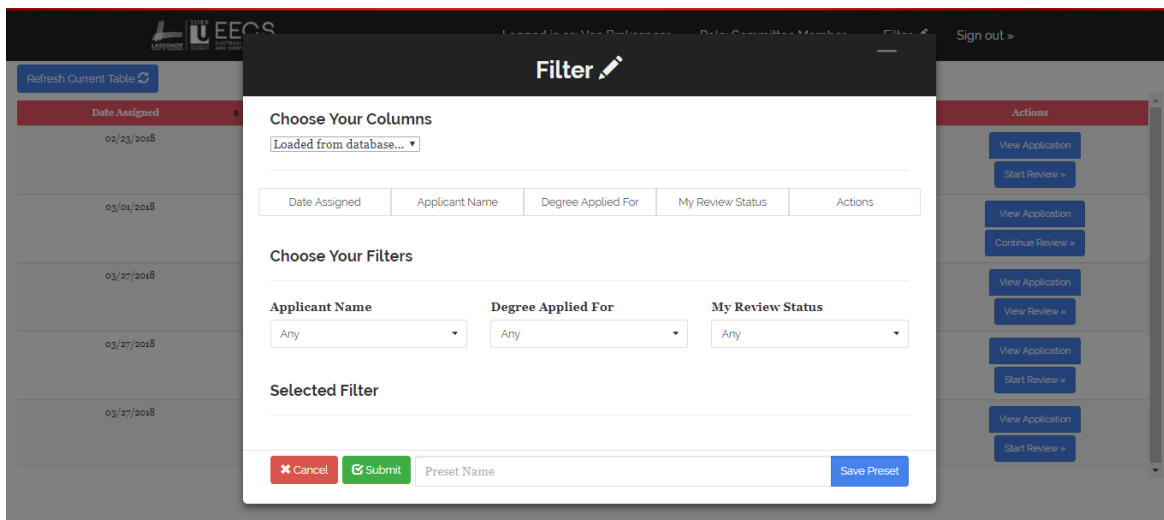

To begin with filtering you must open the modal. To do so click on the “Filter” button on the navigation bar.

The screenshot shows the top navigation bar of the EECS application. It includes the university logo, the user's name 'Von Brakespear', their role 'Committee Member', and a 'Filter' button with a pencil icon, which is highlighted by a red arrow. Below the navigation bar is a table with the following data:

Date Assigned	Applicant Name	Degree Applied For	My Review Status	Actions
02/23/2018	Igor Tirtse	MSc	New	View Application Start Review
03/01/2018	Ciro Enbury	MASe	Draft	View Application Continue Review
04/06/2018	Bolsen Birgitta	MSc	Submitted	View Application View Review
04/06/2018	Goucher Dave	PhD	Submitted	View Application View Review

Figure 48: Opening the Modal

The screenshot shows the 'Filter' modal window. It has a title bar 'Filter' with a pencil icon. The modal is divided into two main sections: 'Choose Your Columns' and 'Choose Your Filters'. In the 'Choose Your Columns' section, there is a dropdown menu 'Loaded from database...' and a row of buttons: 'Date Assigned', 'Applicant Name', 'Degree Applied For', 'My Review Status', and 'Actions'. In the 'Choose Your Filters' section, there are three dropdown menus: 'Applicant Name' (set to 'Any'), 'Degree Applied For' (set to 'Any'), and 'My Review Status' (set to 'Any'). Below these is a 'Selected Filter' section with a text input field. At the bottom, there are three buttons: 'Cancel', 'Submit', and 'Save Preset'.

Figure 49: Filter View

6.2.2 Choose Your Columns

Once the modal is opened you can then choose the columns you wish to be displayed on the table. To do so, click on the button indicating which column you wish to see. Once clicked the button will display the order that column will appear in the table.

Figure 50: Choose Your Columns

Note: Not selecting any column will use the same columns and order as the default table. If the *Actions* column is not selected it will automatically be placed as the right most column.

6.2.3 Choose Your Filters

After selecting your columns, you can then choose the attributes by which you wish to filter your table. Begin by clicking on the drop down of the attribute you wish to filter and select an option from a list of generated options.

Figure 51: Choose Your Filters

Note: You can use the search bar to help locate values. Begin by typing in the text box displayed. You can only select an option that appears in the dropdown.

6.2.4 Submitting a Filter

Once you have chosen your columns and filter attributes confirm your filter by reading the text under “Selected Filter” and click “Submit”. The text under the “Selected Filter” will change based on your filter attributes.

Figure 52: Submit Filter

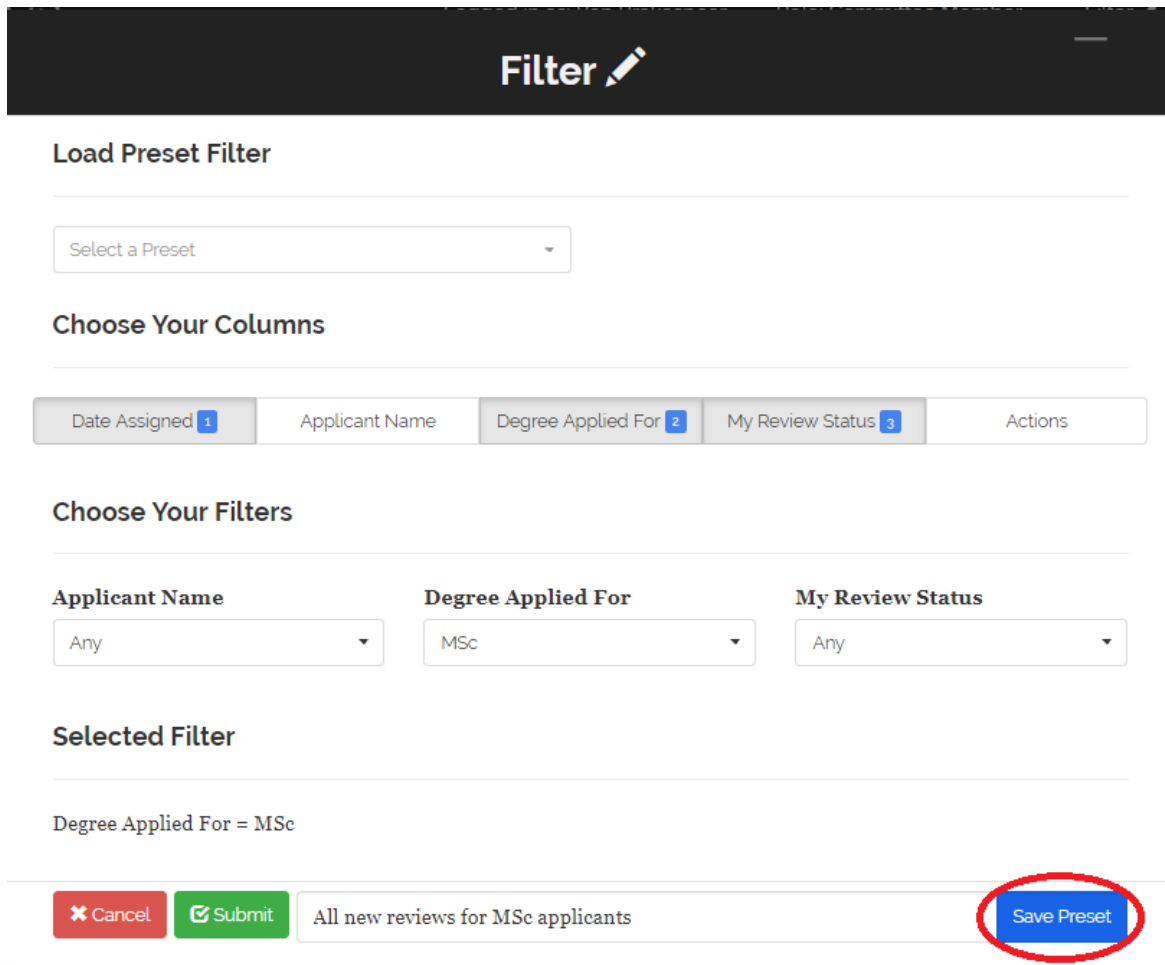

Note: When submitting a filter with no selected filters, the default table will be loaded.

Date Assigned	Degree Applied For	My Review Status	Actions
02/23/2018	MSc	New	View Application Start Review »
03/28/2018	MSc	Submitted	View Application View Review »

Figure 53: Resulted Table After Applying Filter

6.2.5 Saving a Filter

Once you have chosen your columns and filter attributes confirm your filter by reading the text under “Selected Filter” and give the preset a name by typing in the text box between the “Submit” and the “Save Preset” button. Once that is done click “Save Preset”.

The screenshot shows a web interface titled "Filter" with a pencil icon. It contains several sections: "Load Preset Filter" with a dropdown menu labeled "Select a Preset"; "Choose Your Columns" with a row of buttons: "Date Assigned 1", "Applicant Name", "Degree Applied For 2", "My Review Status 3", and "Actions"; "Choose Your Filters" with three dropdown menus: "Applicant Name" (Any), "Degree Applied For" (MSc), and "My Review Status" (Any); "Selected Filter" showing "Degree Applied For = MSc"; and a bottom bar with a "Cancel" button, a "Submit" button, a text input field containing "All new reviews for MSc applicants", and a "Save Preset" button which is circled in red.

Figure 54: Save a Filter

Once you have saved a filter you will be provided with a new table to match your filter and it will appear in the dropdown to be used for loading a filter.

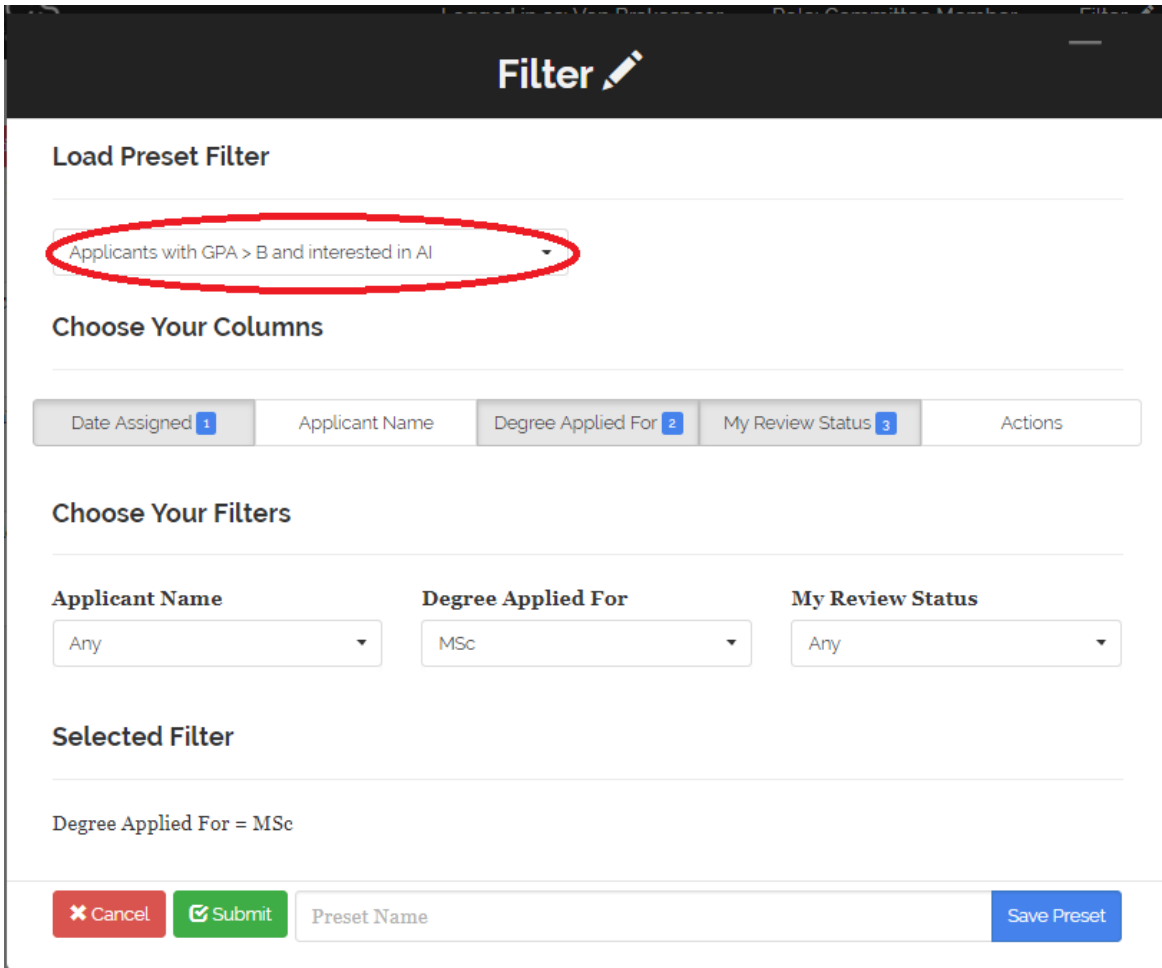

Pro-tip: You can update a filter by typing in the same name as an existing filter.

6.2.6 Deleting a Filter

You can delete a filter by going into your settings. See Section 4.3.

6.2.7 Loading a Filter

To load a saved filter click the dropdown under “Load a Preset” and select the preset you wish to use. Once selected the modal will auto-populate.

The screenshot shows a modal titled "Filter" with a pencil icon. It contains several sections: "Load Preset Filter" with a dropdown menu circled in red showing "Applicants with GPA > B and interested in AI"; "Choose Your Columns" with a row of buttons: "Date Assigned 1", "Applicant Name", "Degree Applied For 2", "My Review Status 3", and "Actions"; "Choose Your Filters" with three dropdown menus: "Applicant Name" (Any), "Degree Applied For" (MSc), and "My Review Status" (Any); "Selected Filter" showing "Degree Applied For = MSc"; and a bottom section with "Cancel" and "Submit" buttons, a "Preset Name" input field, and a "Save Preset" button.

Figure 55: Loading a Filter

Pro-tip: Create a preset called *Default* with no columns or filters selected. You can then use this to load the default table or help clear any data you put in the modal.

6.3 Sorting the Table

If you wish to sort the table displayed simply click on the columns that display arrows next to the name. The table can be sorted in Ascending/Descending order described below.

- **Name:** Descending Order = Z to A, Ascending order = A to Z
- **Date Assigned:** Descending Order = Newest - Oldest, Ascending order = Oldest - Newest
- **Degree Applied For:** Descending Order = Z to A, Ascending order = A to Z
- **Review Status:** Descending Order = Z to A, Ascending order = A to Z

Pro-tip: To sort by multiple columns hold the shift key while clicking on the columns.

Note: Ordering fields can be done on both filtered and unfiltered review application lists.

The following images depicts on how to order review applications using the *Date Assigned* field in ascending and descending order.

Date Assigned	Applicant Name	Degree Applied For	My Review Status	Actions
01/23/2018	Igor Tirtu	MSc	New	View Application Start Review +

Figure 58: Ordering using multiple fields

6.4 Reviewing Applications

The review process can have **three** different statuses shown

- **New:** A new application has been assigned to the committee member and no changes have been made on the review yet.
- **Draft:** A previously saved draft review. A review is considered as a draft when there has been at least one or more changes committed and the user has decided to save the changes.
- **Submitted:** A completed review which has been submitted and uploaded to the server. Once a review is submitted, it cannot be undone.

The following list denotes the fields in a review form that is **not** submitted yet and their requirement status:

Field Name	Required
Institution Name(s)	No
Institution Assessment(s)	No
Background Information	No
Research Experience	No
Letter of Intent Analysis	No
Additional Comments	No
Applicant Rank	Yes

Table 1: Review Fields

6.4.2 Filling out a Review

Table 1 outlines the fields in a review application and their required status. The following table specializes Table 1 and displays the type of input each field takes.

Field Name	Input Type
Institution Name(s)	Multiple Drop-Down
Institution Assessment(s)	Multiple Drop-Down
Background Information	Text
Research Experience	Text
Letter of Intent Analysis	Text
Additional Comments	Text
Applicant Rank	Single Drop-Down

Table 2: Review Fields Input Type

Institution Assessment: When performing a institution assessment you can select from one or more institutions and a description in the database. If the institution does not exist or their description is inadequate you can also create a new institution/assessment.

The following image depicts an user selecting two institutions the applicant has attended and selecting an assessment from each of the institutions.

Figure 62: Institution Assessment View

6.4.3 Saving a Review as Draft

While filling out a review you will have the opportunity to save an on-going review as a draft for future completion.

The following images depicts a user making changes to an application review and then saving it as a draft. Consequently, the status of the review is changed to **Draft**. And if the user wants to continue working on the draft sometime later, the action for opening a drafted review will say **Continue Review**.

The screenshot shows the EECS Gradapps interface. At the top, it says "Logged in as: Von Brakespear". Below this is a section titled "Previous Institutions" with dropdowns for "Institution Name(s)" and "Institution Assessment(s)". To the right are "Add Institution" and "Add Assessment" buttons. Below this is "Background and Research Information" with text boxes for "Background Information" and "Research Experience". Then "Letter Analysis and Additional Comments" with "Letter of Intent Analysis" and "Additional Comments" text boxes. At the bottom is "Final Rank" with an "Applicant Rank" dropdown. At the very bottom are three buttons: "Cancel Review" (red), "Draft Review" (green, circled in blue), and "Submit Review" (green).

Figure 63: Save a review as draft

Date Assigned	Applicant Name	Degree Applied For	My Review Status	Action

03/30/2018	Ona Peng	PhD	New	View Application Draft Review

Figure 64: Drafted Review View

6.4.4 Submitting a Review

Once you are satisfied with your review simply click the **Submit Review** button to complete your review. If the correct number of reviews for an application has been submitted (depending on visa status), the application will be automatically available for selection to those on the **Professor Portal**. The only required field needed for submitting a review is the final application rank that is to be decided by the admission committee member upon analysing the application.

The following image depicts an end user submitting a review.

The screenshot shows the EECS Gradapps submission interface. At the top, the user is logged in as 'Von Brakespear'. The form is divided into several sections:

- General Information:** Fields for Student Number (212122456), Last Name (Titte), First Name (Igor), and Degree Applied For (MSc).
- Previous Grades:** Fields for GPA (C+), GRE (N/A), TOEFL (N/A), IELTS (N/A), and YELT (N/A).
- Previous Institutions:** A section for adding institutions and assessments. It includes a dropdown for 'Institution Name(s)' (Capital University of Medical Sciences, Ferris State University) and a text area for 'Institution Assessment(s)' (One of the best in the world for medical sciences, Well known for research in Machine Learning).
- Selected University Assessments:** A list of two assessments: 'Ferris State University' (Well known for research in Machine Learning) and 'Capital University of Medical Sciences' (One of the best in the world for medical sciences).
- Background and Research Information:** Two text areas for 'Background Information' (Does not have a strong math background. Okay, in programming.) and 'Research Experience' (No undergraduate research experience).
- Letter Analysis and Additional Comments:** Two text areas for 'Letter of Intent Analysis' (Letter of Intent does not show any intent on why he would be a good fit for BioMed engineering.) and 'Additional Comments' (The student is not a good fit for the program).
- Final Rank:** A dropdown menu for 'Applicant Rank' (C).

At the bottom, there are three buttons: 'Cancel Review' (red), 'Draft Review' (green), and 'Submit Review' (green, circled in blue).

Figure 65: Submit a Review

Once the review is submitted, it will show up on the user dashboard with status as **Submitted** and The user action to view a submitted review will say **View Review**. Submitted reviews are only viewable as a plain text application form. The following images depicts viewing a submitted review.

Date Assigned	Applicant Name	Degree Applied For	My Review Status	Actions

7 Professor

This section provides a detailed description of the professor system functions.

7.1 Default Portal

After logging in and selecting the professor role you will have access to the professor portal. In this portal you will be presented with a table containing all the students who have applied to be a graduate student. Here you can perform the following:

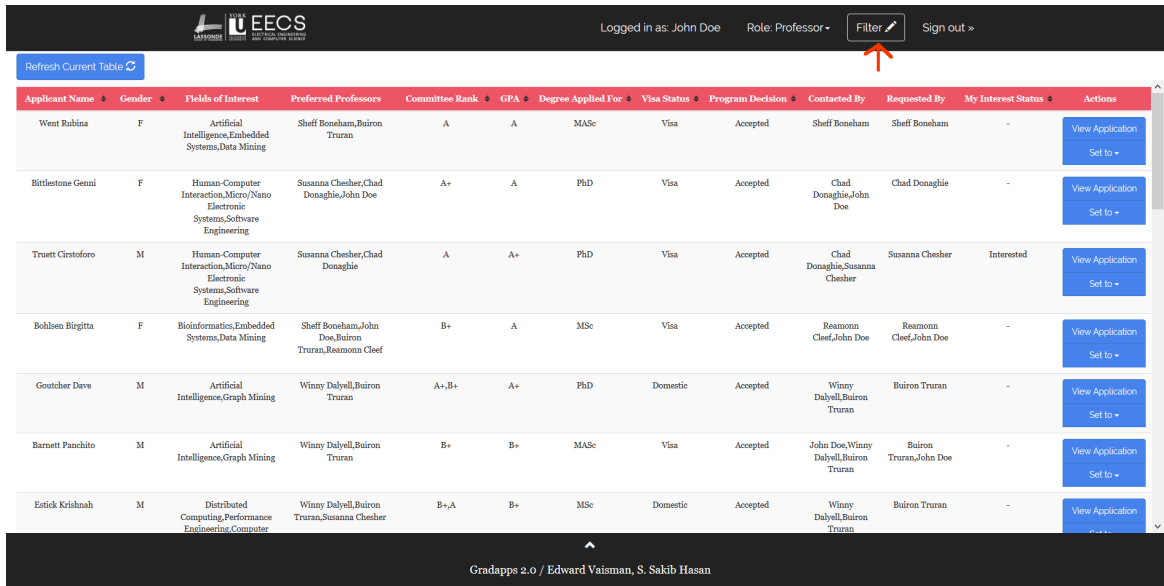

- Filter the table to only display applications based on a criteria of your choosing
- Sort the table on certain columns
- View applications and their respective committee review
- Set application attributes such as notifying others if you have contacted/requested an applicant or indicate to yourself if you find an applicant interesting or not.

7.2 Filtering the Table

This section describes how you would use/build/save/load a filter on the table.

7.2.1 Opening the Modal

To begin with filtering you must open the modal. To do so click on the “Filter” button on the navigation bar.

The screenshot shows the Gradapps application interface. At the top, there is a navigation bar with the EECS logo, login information (Logged in as: John Doe, Role: Professor), a 'Filter' button with a dropdown arrow, and a 'Sign out' link. Below the navigation bar is a 'Refresh Current Table' button. The main content is a table with 13 columns: Applicant Name, Gender, Fields of Interest, Preferred Professors, Committee Rank, GPA, Degree Applied For, Visa Status, Program Decision, Contacted By, Requested By, My Interest Status, and Actions. The table contains 7 rows of applicant data. The 'Filter' button in the navigation bar is highlighted with a red arrow.

7.5 Setting Application Attributes

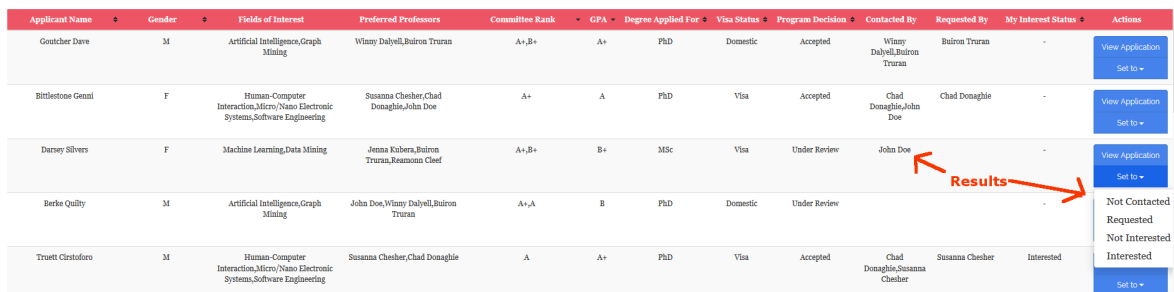

Clicking on the “Set To” drop down on an applicant row will provide you options to update the following fields on an application.

- **Contacted/Requested:** Indicate to others whether or not you have contact-ed/requested a student (default not contacted and not requested).
- **My Interest Status:** This is a personal field to help you keep track of applica-tions you have/haven’t viewed and your opinion of them. It can only be seen by you.
